Saudia Arabia

Summary

As an Information Technology graduate with a strong academic foundation, practical experience, and continuously expanding qualifications, I am seeking a challenging position in the technology industry. Driven by a passion for innovation and excellence, I bring a combination of technical expertise and problem-solving skills to contribute effectively within a dynamic team environment.

Professional experience

Saudi Ground Services

March 2025 - June 2025

Administrative Assistant

- Oversaw and maintained inventory of new IT equipment, ensuring timely procurement, proper documentation.
- Worked with the Airport Director to address all requests and requirements, ensuring smooth operations.

The Saudi National Bank - SNB

June 2024 - July 2024

Trainee

- Deployed software and applied security patches using SCCM.
- Created and maintained Power BI reports for business analysis.
- Assisted in updating device policies to improve security and system performance.

Education

University of Jeddah

Jan 2021 - Jan 2025

Bachelor's degree, Information Technology | GPA: 4.1 / 5

Projects

Instant Find

For my senior project, I created a website called 'Instant Find' with the aim of efficiently locating available parking spots. The website utilizes sensors and Arduino technology to collect real-time information, making it easy for users to find and secure parking spaces.

- Awarded 2nd Place at the University of Jeddah's Digital Innovation & Entrepreneurship Forum 2024, Information Technology Department

Skills

Problem Solving - Time Management - Teamwork - Programming - Cloud & Infrastructure - Administration

Certifications

- Microsoft Certified: Azure Fundamentals AZ-900 - Microsoft
- Fundamentals of Project Planning and Management - University of Virginia
- Introduction to Networking and Storage (with Honors) - IBM
- Software Development Processes and Methodologies - University of Minnesota
- Initiating and Planning Projects - University of California, Irvine
